2024 Facility Training

Who are we?

The Social & Labor Convergence Program (SLCP) aims to improve social and labor conditions in global supply chains by reducing the number of social and labor audits in facilities. Together with key stakeholders from the apparel, home textile and footwear industry, we have built a tool and system to gather facility social and labor data that can be shared with multiple business partners. **Over 80 brands and retailers accept SLCP verified data.** This reduces audit fatigue, enables data comparison, and frees up resources for improvement programs.

Join the following FREE training sessions to hear from the SLCP team, our system partners, brands, manufacturers and more!
