

# Are you new to Better Work? Do you want to share your data with SLCP?

Use the below decision tree for guidance

**Are you located in Bangladesh, Indonesia, Pakistan or Vietnam?**

**YES**

**NO**

**Do you have an active account on the Better Work platform?**

Unfortunately, Better Work data sharing with SLCP is not possible yet in your country/ region.

**YES**

**NO**

You must connect to the SLCP Gateway from your profile within 30 days of the start of your cycle. It is only necessary the first time you want to share data with SLCP.

- Tick the box "Request for data sharing via SLCP" in your profile on the Better Work portal.
- You are now redirected to complete your facility profile on the Gateway and request approval.
- Follow the guidance on how to do this [here](#) from step 3 onwards.
- Approval should be granted within 1-2 working days. Once approved proceed to the next step.

Contact your Better Work country programme to confirm eligibility and obtain details on enrollment ([www.betterwork.org](http://www.betterwork.org)).

**Are you at the start of your Better Work assessment cycle?**

**YES**

**NO**

Initiate the SLCP self-assessment from the Better Work online platform.

You can only share data that was collected after you connected to the SLCP Gateway. Wait until the start of your next Better Work cycle to follow the steps below.

**Do you know which Step to complete in the self-assessment?**

**YES**

**NO**

Please complete 100% of the self-assessment questions within 60-80 days of the start of your cycle and submit on the Better Work platform. Better Work will then be able to conduct their compliance assessment following your SLCP self-assessment. Data will be automatically transferred to the Gateway. Read [here](#) how you can share the data from the Gateway to end-users.

Find more information about which Steps you can choose from [here](#). A Better Work assessment focuses on legal compliance topics only (Step 1 of the self-assessment). However, many brands require additional data for their social compliance programs. Consult [this page](#) for their preferred Step or contact your brand partners to understand which Step data they require.

**Help! I am lost!** Please go to our [Helpdesk](#) for guidance via the FAQs or to submit a request.
